# PRPA Instructions for Players

## All 2023 USA Pickleball rules apply

Key points of the 2023 USAP rules are summarized below. As a player, you should be familiar with all the rules found here: [USAP Rulebook](#)

1. The format of the match and list of events will be decided by the Tournament Director (DT). To allow for a playable event, categories can be merged.
2. Please pay attention to the tournament announcements. You will have 5 minutes to report to play after your match has been called. The game will be forfeited if a player does not show up to play 5 minutes after the match has been called.
3. Players must play with a USA Pickleball approved paddle: [Approved Paddle List](#)
4. Players are responsible for calling all lines on their court, including calling service failures, short serves, and fouls in the “kitchen” zone. The Calling Code of Ethics requires that the opponent gain the benefit of any doubt.
  - A. The player must see color between the ball and the line to call the ball out.
  - B. A ball that cannot be called “out”, is considered in.
  - C. If you ask the opponent to make a line call on your side, and they make a clear call, their call stands. If the opponent does not make a clear call, the original call stands.
  - D. If there is disagreement between the pair on a call in their court, the ball is considered in. And no matter how obvious it is to a player that a ball is out, he must make an immediate and loud call that is heard by all players.
  - E. Any disputes must be solved by players on the court.
5. A player may warn the opponent that he has stepped on the line on serve or that he has committed a foul in the “kitchen” zone. If the opponent does not agree with your call, play must be repeated.
6. The server must make sure all players are ready and call the score before serving. A “bad bounce” on the serve will be replayed; a serve hitting the net and landing “in” will be replayed.
7. Service must meet USA Pickleball requirements:
  - a. For a volley serve: The server's arm must move in an upward arc; the highest point of the paddle should be below the wrist; the ball must be contacted below the waist.
  - b. For a drop serve: The ball must be dropped from the hand, without added force. No tossing!
  - c. Player may not manipulate or spin the ball with any part of the body before the serve.
8. Any carry, or double hit, must be involuntary and be a continuous movement.
9. A player may stop the play to correct the score or position. If correct, the play is repeated. If it is incorrect, it is a fault of the team that stopped the play.
10. If a position error is identified after the rally, the rally point is maintained.
11. Players can call “timeouts” for a “limited period”
  - a. “Limited period”= 1 minute.
  - b. Each team has 2 “timeouts” per game of 11 or 15 points, and 3 per game of 21 points. The times can only be requested before the serve. After the serve, it is a foul.
12. Medical time: 1 per player per game. If invalid, the player will be charged regular time and a technical warning. If you do not have timeouts remaining, it is a technical foul (minus 1 point).
13. [USAP Concussion Protocol](#): Any player who suffers a head injury will not be allowed to continue
